

Mathematics - Grade 4

Addition and Subtraction

Addition (+) means putting numbers together.

Example: $345 + 126 = 471$

Subtraction (-) means taking away from a number.

Example: $500 - 143 = 357$

Word Problem: Ali had 120 shillings. He gave 45 to his sister. How much is left?

Answer: $120 - 45 = 75$ shillings

Multiplication Basics

Multiplication means repeated addition.

Example: $4 \times 3 = 12$ (This means 4 added 3 times)

Times Table Tip:

Practice 2 to 12 times tables daily for speed and accuracy.
